"WE CONNECT"

We understand the concern and worry that arise when families have elderly at home who need special care, especially in today's busy life when most people face different types of constraints whereby they might not have sufficient time to take care of those in need.

As such, "We Connect" hopes to share your worries at this critical stage and understand your needs. We can dispatch caregivers to your home or designated location to take care and provide daily care, and health care services to the elderly, ensuring that they are properly taken care of and enjoy their old age, while also reducing the hustle and fatigue of the family members.

Our Services

1 Accompanying and Caring:
Depending on the elderly's health condition, we can provide daily care such as talking, taking walks, shopping, accompanying them to visit the doctor, measuring blood pressure, reminding them to take medication, reheating food and helping with simple housework. If the elderly are frail and have mobility difficulties or are bedridden, we can also provide personal toilet assistance, personal hygiene cleaning and bathing services.

2 Health Care:
Services include wound management, ulcer care, stoma care, tube care, gastric tube feeding and peritoneal dialysis etc.

We Provide Services To

- 1. Elderly who need care.
- 2. Elderly who are frail or ill and have mobility difficulties or are bedridden.

How to Apply for Service

You can call, visit us in person or download the application form online and return the completed form to us by fax or email.
